

## Are smart PoE switches any good

### Overview

We tested 5 managed PoE switches for smart homes in 2026. Ubiquiti UniFi Switch Lite 16 PoE (\$299) wins overall; TP-Link TL-SG1016PE (\$140) is the value pick. This article contains affiliate links. I've spent countless hours running power cables to IP cameras, wrestling with power strips near wireless access points, and dealing with the cable clutter that comes with traditional network setups. After spending \$2,300. When selecting a PoE network switch, you need a device that balances power, connectivity, and manageability. The NETGEAR GS305P stands out as the best overall due to its reliable unmanaged design and solid PoE+ capacity. For those seeking managed features, the TP-Link TL-SG1428PE offers extensive. A quality PoE switch solves that problem by sending both data and power through a single Ethernet cable. Power over Ethernet simplifies everything. Not all switches labeled "PoE" can actually handle the power demands of modern devices, and the difference between a \$40 switch and an \$80 switch often means the difference between a stable network and devices randomly dropping offline at 2 AM.
