

Belgian Stainless Steel Cable Tray Price List

AI Overview

Stainless steel cable trays in Belgium typically range from €25 to €150 per meter, depending on type, size, and customization.

Price Overview

The cost of stainless steel cable trays varies based on several factors:

- Type of tray:** Solid, perforated, or ladder-style trays affect pricing. Ladder trays for heavy-duty cables are generally more expensive than perforated or solid trays.
- Material grade:** Higher-grade stainless steel (e.g., 304 or 316) for corrosion resistance or hygienic applications increases the price.
- Dimensions and load capacity:** Wider trays or those designed for higher cable loads cost more. Standard widths range from 100 mm to 600 mm, with prices scaling accordingly.
- Customization:** Special shapes, bends, or coatings tailored to specific projects can add to the cost.
- Supplier and volume:** Local Belgian manufacturers like Trayco, Brilltech Engineers, and Jeetmull Jaichandlall offer competitive pricing, and bulk orders often reduce per-meter costs.

Estimated Price Range

- Perforated stainless steel trays: €25–€60 per meter
- Ladder-style stainless steel trays: €50–€120 per meter
- Heavy-duty or custom trays: €100–€150+ per meter

These ranges are indicative; actual prices depend on project specifications, delivery, and installation requirements.

How to Obtain Accurate Pricing

Request a quote: Contact Belgian suppliers directly, such as Trayco, Brilltech Engineers, or Jeetmull Jaichandlall, providing tray type, dimensions, and quantity.

Compare suppliers: Evaluate multiple quotes to account for material quality, warranty, and delivery terms.

Consider installation costs: Some suppliers offer installation support, which may affect total project cost.

By consulting local manufacturers and specifying your project requirements, you can obtain precise pricing and ensure compliance with Belgian standards for cable management systems.
