

CIF price 6-pin cold connector

AI Overview

CIF pricing for 6-pin cold connectors varies widely depending on supplier, quantity, and shipping destination, typically ranging from \$0.10 to \$2 per unit for standard connectors.

Supplier Options
China Manufacturers and Wholesalers: Platforms like Made-in-China list numerous 6-pin connectors at competitive factory-direct prices, often suitable for bulk orders. Prices can start as low as \$0.10–\$0.50 per unit for standard wire-to-wire connectors, but CIF costs will increase depending on shipping, insurance, and import duties to your location.
Electronics Distributors: Mouser Electronics and McMaster-Carr offer high-quality 6-pin connectors, including DIN circular and IDC types, with pricing typically higher than Chinese wholesale options. These suppliers provide datasheets, guaranteed quality, and faster delivery, but CIF costs may be higher due to shipping from the US or Europe.
Retail Platforms: Amazon offers 6-pin connectors for small quantities, including waterproof and corrosion-resistant options. While convenient, CIF pricing is less relevant here since shipping is usually included in the listed price.
Specialized Connectors: Econ Connect provides high-quality IDC socket connectors for flat cables, with options for pre-assembled cables. These are suitable for industrial or EMS applications, and CIF pricing would need to be requested directly from the supplier.

Estimating CIF Price
To calculate CIF price for import:
Unit Price: Obtain the FOB (Free on Board) price from the supplier.
Freight Cost: Add shipping charges to your port of destination.
Insurance: Include insurance for the shipment, typically 0.5–1% of the cargo value.
Customs Duties and Taxes: Factor in import duties and VAT applicable in your country. For example, if a Chinese supplier quotes \$0.20 per connector FOB, shipping \$50 for 500 units, and insurance \$5, the CIF per unit would be approximately \$0.31, excluding customs duties.

Recommendations
Contact multiple suppliers for FOB quotes and request CIF estimates to your port. **Verify OEM quality and certifications** if the conne...
