

Curved Fiber Optic Splice Box

Overview

These aluminum enclosures are designed for high-density splice storage, with emphasis on proper fiber management and versatility of cable port seals and cable tie-down features. FSB enclosures can be configured at the time of order for either ribbon splicing or single fiber. Splice boxes, also known as fiber optic splice enclosures or fiber splice closures, are essential components in fiber optic networks. With their compact and uniform design, the splice boxes provide plenty of interior space for the secure connection of fiber optics.
