

Custom Manufacturer of Nordic Optical Cable Brackets

AI Overview

Norden Communication, LASER COMPONENTS Nordic, and BVS are leading providers of custom optical cable brackets in the Nordic region. Norden Communication is a global manufacturer and supplier of electrical and optical brackets, offering a wide range of products for industrial and telecommunication applications. They provide customized bracket solutions to meet specific project requirements, ensuring compatibility with various cable types and installation environments. Their expertise includes both standard and specialized designs, making them suitable for large-scale deployments and complex optical networks. LASER COMPONENTS Nordic specializes in optical and optoelectronic components, including fiber optics and related mounting solutions. They offer custom manufacturing services, collaborating with clients to develop brackets and components tailored to unique applications, from sensor technology to medical and aerospace industries. Their production facilities in Germany, Canada, and the US support high-quality fabrication, and their engineers provide design support to ensure optimal performance in demanding environments. BVS, based in Norway, is a world-leading supplier of cable management systems for offshore and arctic conditions. Their product range includes special brackets, cable trays, trefoil cleats, and racks, all made from AISI 316L stainless steel for durability in extreme climates. BVS offers customized solutions for offshore installations, ensuring that brackets and support systems meet stringent environmental and safety standards. They have experience delivering complete packages for large-scale projects, including oil and gas platforms.
