

Fiber Optic Cable Clamping Prices

AI Overview

Fiber optic cable clamps typically range from \$0.09 to \$2.40 per unit depending on material, type, and order volume. Price Range and Factors

Fiber optic cable clamp prices vary widely based on material, design, and quantity. Low-cost options, often made from thermoplastic or nylon, can start as low as \$0.09 per unit for bulk orders of 10,000+ units, while higher-end clamps made from alloy or stainless steel for ADSS or heavy-duty applications can reach \$2.40 per unit at smaller volumes of 1,000+ units. Volume discounts are common, with prices decreasing significantly for large orders, e.g., \$0.20–\$0.30 per unit for 50,000+ units.

Material and Design Considerations

Clamps are manufactured from UV-resistant thermoplastic, galvanized steel, aluminum alloy, or stainless steel, each offering different durability, corrosion resistance, and load-bearing capacity. Specialized clamps are designed for specific cable types such as drop cables, ADSS, or OPGW, and for installation in harsh environmental conditions. Features like strain relief, flexible tension, and compatibility with pole brackets can influence pricing.

Supplier Options

Amazon offers small-scale retail options for fiber optic clips suitable for minor installations or DIY projects. Fibconet provides ISO-certified suspension clamps and other FTTH accessories, with competitive pricing for bulk orders and international shipping options. MefiberOptic.com supplies a wide range of clamps and brackets for professional FTTx deployments, including OEM services for custom configurations. Accio.com lists market trends and comparative pricing for various clamp types, highlighting cost-efficiency and performance considerations. Fosco Connect offers strain-relief kits and high-quality clamps from leading manufacturers like Panduit and Richco, suitable for professional cable management.

Key Considerations for Buyers

Compatibility: Ensure the clamp matches the cable type and diameter.

Load Rating: Check breaking and working load specifications for safety.
