

Fiberglass cable tray styles and prices

AI Overview

Fiberglass cable trays (FRP/GRP) come in ladder, trough, and channel types, offering corrosion resistance, lightweight strength, and long service life, with prices typically provided via custom quotations.

Common Fiberglass Cable Tray Models

- Ladder Type FRP Cable Tray**
Features: Two side rails connected by transverse rungs, open design for ventilation and heat dissipation.
Applications: Power distribution, substations, industrial plants, and large-diameter control cables.
Advantages: Easy installation, modification, and suitable for light, medium, and heavy-duty loads.
- Trough or Channel Cable Tray**
Features: Bottom plate with side rails, offering more protection while allowing some ventilation.
Applications: Control cables, communication lines, and sensitive instrumentation circuits.
Advantages: Shields cables from dust and falling objects, ideal for computer and signal cables.
- Solid or Epoxy Composite Trays**
Features: Fully enclosed or semi-enclosed designs for maximum protection.
Applications: Environments requiring chemical resistance or electromagnetic transparency.
Advantages: Non-conductive, corrosion-resistant, and lightweight compared to steel.

Material and Resin Options

- Polyester Resin:** Resistant to most acidic attacks, gray color standard.
- Vinylester Resin:** Resistant to acids and bases, beige color standard.

Custom colors and resin systems are available for specific environmental or temperature requirements.

Accessories and Supports

Covers, bends, tees, reducers, brackets, and mounting hardware are available to complete the system. Slot patterns and modular designs allow easy cable management and future expansion.

Pricing Information

Fiberglass cable tray prices are not fixed and depend on tray width, load capacity, total length, resin type, and environmental conditions. Suppliers like MP Husky and Unicomposite provide custom quotations based on project specifications. To get a price, you typically need to submit:

- Cable list and route drawings
- Estimated load and tray width
- Total length and...
