

Fully Automatic Intelligent Photovoltaic Multimeter

Overview

Fully automatic MPPT test, and it can read the fully automatic VOC voltage in any mode. Widely used for foldable solar panels, portable solar panels, solar PV kits, roof solar panels, etc. Power Point Voltage/Current, Backlit LCD Display Powerful Solar Panel Tester This solar panel tester photovoltaic multimeter accurately evaluates the power of solar panels with a power range of 5-800W, voltage of 12-60V and current 0-35A. It detects faulty modules in no time at all and helps with optimal placement for maximum energy yield. When pressing the [AUTO MPPT] test button, the multimeter automatically adjusts the test interval. Having tested all five options myself, I found that the FROGBRO Solar Panel Tester 800W MPPT Multimeter with LCD stands out. Compared to PV system monitoring products (e. With real-time data and user-friendly interfaces, the performance of your PV system can be tracked, efficiency improvements identified and potential.
