

HDMI fiber optic cable transmitter

AI Overview

HDMI fiber transmitters allow long-distance, high-quality HDMI signal transmission over fiber optic cables, supporting video, audio, and control signals up to 20 kilometers. Overview HDMI fiber transmitters are devices that convert HDMI signals into optical signals for transmission over fiber optic cables. This technology enables long-distance, interference-free transmission of high-definition video and audio, which is ideal for professional AV installations, broadcast studios, CCTV monitoring, LED video walls, and conference rooms. Key Features Long-Distance Transmission: Most HDMI fiber transmitters support distances up to 20 km over single-mode fiber, while multi-mode fiber typically supports shorter distances (up to 500 meters) depending on the cable type. High-Resolution Support: Many models transmit 1080p at 60Hz or higher, with some supporting 4K 60Hz and YUV 4:4:4 color formats for crystal-clear video. Audio and Control Signals: These devices often carry embedded audio and IR or KVM control signals, allowing remote operation of connected devices such as keyboards, mice, or AV equipment. Plug-and-Play Installation: Most HDMI fiber extenders are easy to install, requiring no software or drivers. Simply connect the transmitter and receiver to the fiber cable and power them up. Interference-Free Performance: Fiber optic transmission eliminates electromagnetic interference (EMI), ensuring stable and lossless signal quality even in industrial or commercial environments. Popular Models Novalink HDMI Over Fiber Extender Kit: Supports up to 20 km, transmits HDMI video, audio, and IR signals, with a durable metal housing and plug-and-play setup. FIBERFIX HDMI Fiber Extender: Offers Full HD 1080p at 60Hz over single-mode fiber, zero interference, and easy plug-and-play installation. Etzin HDMI Extender with KVM: Supports 1080p uncompressed HDMI over single-mode fiber up to 20 km, includes KVM USB2.0 support, local loop-out, and stereo audio. Tobo HDMI to Fiber Optic Converter: 1080p HDMI KVM extender with loop-out and...
