

High-density 19-inch chassis best-selling model in stock

Overview

The Perle MCR1900 Media Converter Chassis is the most reliable high density modular chassis system available today. It is ideal for enterprise and campus environments where multiple points of copper and/or fiber integration are essential. TPS develops custom 19" power cabinet solutions for high-density integration of programmable power supplies and industrial control systems. An end-to-end copper to copper, copper to fiber, multimode. A 19-inch server chassis is a standardized enclosure designed to house and protect critical server components such as motherboards, power supplies, storage drives, and cooling systems. A TRC-190 chassis comes with one AC or DC power input, with an optional redundant power expansion AC or DC. Powerful 19" rack-mount chassis platforms from commercial grade to full MIL-STD for a wide range of integrated rack-mount applications.
