

# How to Choose the Price of Fireproof Cable Trays in Morocco

## AI Overview

The price of fireproof cable trays in Morocco varies widely depending on material, size, fire rating, and supplier, typically requiring direct quotes from local distributors.

**Factors Affecting Price**

- Material:** Fireproof cable trays are commonly made from galvanized steel, stainless steel, or aluminum. Stainless steel offers superior fire and corrosion resistance, which generally increases cost, while aluminum is lighter but may be less fire-resistant.
- Type and Design:** Prices differ based on tray configuration:
  - Ladder trays with side rails and rungs for heavy-duty cables
  - Perforated or mesh trays for ventilation and airflow
  - Enclosed or U-shaped trays for compact or sensitive installations
- Fire Rating and Coatings:** Trays with UL 1724 or NFPA 70 certifications and intumescent coatings that expand under heat to protect cables are more expensive due to enhanced fire protection.
- Size and Load Capacity:** Larger trays or those designed to carry high cable volumes cost more. Custom lengths or widths also affect pricing.
- Installation and Accessories:** Costs may include seismic supports, vibration dampers, and firestop integration for industrial or commercial projects.

**Suppliers in Morocco**

Kerix and Sourcia list multiple cable tray suppliers across major cities like Casablanca, Tangier, Rabat, Fes, Agadir, and Marrakech, where you can request quotes directly. Bahra Electric and Brilltech Engineers provide high-quality trays with options for galvanized steel, stainless steel, and fiberglass, along with installation support.

**How to Obtain Pricing**

Since prices vary based on specifications and project requirements, the most reliable approach is to contact suppliers directly. Provide details such as:

- Tray material and type
- Required fire rating
- Dimensions and load capacity
- Quantity needed

Suppliers can then provide custom quotes and catalogs, ensuring compliance with Moroccan standards and project needs. In sum...
