

Hsw core switch

Overview

HSWA is the Core Switch Card for AN5516-01/AN5116-06B and AN5516-06 OLT. Capacity of the core switch card HSWA is 488 Gbit/s. Category: AN5516 OLT, GPON OLT, FiberHome, 24 ISPs have ordered this in the past 4 weeks. HSWA Supports 32 k MAC address. Broadcast-quality video in a compact, notebook-size chassis. Connect your Ethernet devices in hostile (hot and cold) environments. Easy to use with auto-negotiation of speed, full/half duplex, crossover or straight through cable sensing. In addition to industrial temperature. A core switch is a high-performance network switch located at the core layer of the network architecture. It is mainly responsible for high-speed forwarding and management of large amounts of data traffic from various aggregation layer switches. The temperature range and voltage options make the HSW-08 an ideal ethernet switch for.
