Company Introduction: Established in 2001, Shanghai Huijue Network Communication Equipment Co., Ltd (HJ Network for short) is the leading manufacturer and solution provider for telecom and communication products. The distribution box is sealed adopts buckle + two screw type structural seals, and the left and right turnover structure of the housing is opened. The HJ series of ODF units can be integrated components in any fiber management system to handle termination and cross-connection of cables. They are available as rack-mounted units for 19 inch or ETSI racks, or as wall-mounted cabinets. The units could be delivered fully. Splice boxes, also known as fiber optic splice enclosures or fiber splice closures, are essential components in fiber optic networks. Their primary function is to protect and manage the spliced fiber optic cables, ensuring they remain secure, well-organised, and unaffected by environmental factors.
