

Industrial Fiber Optic Transceiver Single Mode

Overview

The 1 Gigabit Singlemode Industrial SFP Transceivers are high-performance modules designed for industrial applications that require reliable and efficient fiber optic connections over long distances. Also known as a mini-Gigabit Interface Converter (GBIC), this industrial SFP module's metal housing offers increased durability while reducing. The Small Form Factor Pluggable (SFP) Transceiver from Intellinet Network Solutions provides a great combination of performance and affordability. Apply for instrumentation, protection, automation and other applications that benefit from economical fiber-optic links up to 23. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 38% may be applied if shipping to the United States. A. The LevelOne SFP-4330 is a high-performance, cost-effective 1. Utilizing 1310nm for transmission and 1550nm for reception, When coupled with the SFP-4340 transceiver which transmits at.
