

Industrial Level 2 Switch RJ45

Overview

IDSL3LM-02S08G-Z8LB industrial managed Ethernet switch with 2×Gigabit SFP and 8×RJ45 ports, fanless design, wide temperature, lightning protection, ERPS, secure, reliable networking for transportation, surveillance, and industrial applications. Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting. This gives you the flexibility to build powerful and secure networks, even in harsh environments: copper and FO ports, as well as redundancy. The Westermo range of managed layer 2 industrial Ethernet switches are designed for use in harsh environments and allow you to build cost-effective, reliable, secure networks. Lynx is the most compact and has the lowest power requirements in this class of switch. Lynx has 8 10/100 Mbit/s ports in addition to 2 ports which can be fitted with Gbit or 100 Mbit SFP. This is an Ethernet switch with layer 2+ static routing capability, and advanced ITU-G. 8032 ERPS Ring technology to improve the rapid self-recovery capability for critical network applications. LK4006P4C2F features 4 gigabit RJ45 ports + 2 gigabit SFP optical ports, all ports are in an IP40 rugged.
