

Ireland Network Electronic Patch Panel Manufacturer

AI Overview

Key manufacturers and suppliers of network electronic patch panels in Ireland include Connectix Cabling Systems, Schneider Electric, and Tredwell Electrical. Connectix Cabling Systems designs and manufactures patch panels in the UK, with distribution available in Ireland. Their products are engineered to exceed performance standards, ensuring reliable installations for structured networking environments. They offer a range of premium patch panels suitable for commercial and industrial applications, with next-day delivery options available in Ireland. Schneider Electric Ireland provides a wide range of network connectivity solutions, including patch panels for residential, commercial, and industrial applications. Their offerings include modular and rack-mounted panels, designed to integrate with broader power and network management systems. Schneider Electric emphasizes compliance with European standards and provides technical support and documentation for all products. Tredwell Electrical is a high-volume manufacturer specializing in electrical control panels, assemblies, and machine integration. While primarily focused on industrial control panels, they also provide modular LV distribution panels and data center panels that can include network patching solutions. Tredwell emphasizes precision, CE certification, and adherence to European electrical standards, making them a reliable option for custom or large-scale networking projects. Distributors and Additional Options Farnell Ireland stocks patch panels from multiple global manufacturers, including L-com, Panduit, Cliff Electronic Components, Connectix, and TUK Buy Patch Panels, offering fast delivery and technical support. Wood Communications is an Irish-owned distributor providing networking products, including patch panels, across Ireland.
