

Israel sells optical splitters

AI Overview

Israel has several suppliers and manufacturers of optical splitters, including HOLO/OR, Tritech Israel, and IL Photonics, serving industrial, medical, and research applications. Key Suppliers and Manufacturers HOLO/OR specializes in diffractive beam splitters, which can split a single laser beam into multiple beams with customizable patterns and inter-spot distances. Their products are suitable for applications such as laser scribing, 3D sensors, fiber optics, and medical treatments, and are available for wavelengths from UV to IR. Tritech Israel offers a broad range of optical components, including passive optics like beam splitters, lenses, filters, and circulators. Their solutions cater to medical, industrial, military, communication, and automotive markets. IL Photonics imports and sells a wide variety of optics products in Israel, including beam splitters, laser optics, polarizers, waveplates, and other specialized optical components. They also provide access to equipment from other suppliers not listed on their website. Additional Resources A directory of beam splitter manufacturers in Israel lists multiple companies, allowing users to browse product catalogs, view company profiles, and contact suppliers directly for inquiries. For commercial buyers, platforms like Trademo provide information on splitter importers and buyers in Israel, including trade volumes and shipment data. Applications Optical splitters from these suppliers are used in a variety of fields: Fiber optics and telecommunications for signal distribution Laser systems for industrial cutting, scribing, and medical procedures 3D sensing and imaging for robotics and autonomous systems Research and laboratory applications requiring precise beam manipulation These suppliers provide both standard and custom solutions, allowing for tailored optical splitter designs to meet specific technical requirements.

[Optical Beamsplitters | Beamsplitter Selection | Edmund](#)

Edmund Optics offers plate, cube, pellicle, polka dot, or specialty prism Beamsplitters in a variety of anti-reflection coatings or substrates. Standard

[UAE's Edge Group buys 30% stake in Israeli defense co Thirdeye](#)

In an unusual defense industries collaboration between Israel and the UAE, Thirdeye Systems (TASE: THES), which develops electro-optical recognition systems for drones integrated

[Israel's Defense Tech Firm Controp Opens First Gulf Branch](#)

With an estimated \$30 million in initial capital, the branch will handle marketing, sales, technical support, maintenance and a degree of local manufacturing of Controp's electro-optical

[Beam Splitter Manufacturers](#)

A Beam Splitter is an optical device that splits a beam of light into two or more beams. The leading manufacturers of Beam Splitters are listed below. Narrow down on the list of companies based on

[Holo/Or Design & Manufacture Diffractive Optical Elements & Micro](#)

TechInvest Holding AG, the parent company of SCANLAB GmbH, is taking a 25 percent stake in the Israeli firm HOLO/OR Ltd. They are recognized as a pioneer in developing diffractive optical

[Optical Splitter Market Size 2026-2035 | Analysis Report](#)

The global Optical Splitter Market stood at \$2.5 billion in 2026 and will grow to \$5.3 billion by 2035, expanding at a CAGR of 8.99%.

[Optics | IL Photonics](#)

IL Photonics imports and sells a broad range of Optics products in Israel. The following display presents our suppliers in this category, highlighting the main features of their products. Click on a logo below

[Fiber Beam Splitters Market in Middle East | Report](#)

The Middle East fiber beam splitters market is a niche but strategically important segment within the broader fiber optic component supply chain. Fiber beam splitters — passive devices that

[Fiber optic splitter Buyers in Israel Saudi Arabia To Israel Saudi ...](#)

Overview These facts are updated till 12Nov2023, and are based on Volza's Israel Saudi Arabia To Israel Saudi Arabia To Israel Saudi Arabia To Israel Importers & Buyers directory of Fiber optic

Optical Fiber Splitters Market in the World | Report

The World optical fiber splitters market encompasses passive components that divide a single optical input signal into multiple output channels, with typical splitting ratios ranging from 1x2

Which countries trade the most with Israel and what do

Which countries trade the most with Israel and what do they buy and sell? Israel's global trade in 2024 consisted of \$91.5bn in imports and \$61.7bn in

Which countries made the biggest deals with Israel in

Which countries made the biggest deals with Israel in 2025? Israel signed several record multibillion-dollar gas, technology and military deals with

Diffraction Optics Products

Our beam splitters are used in a wide variety of research and industrial applications. Some typical areas include aesthetic skin treatment, laser scribing, laser dicing, 3D sensors, fiber optics and medical

Top 100 Photonics Companies in Israel (2026) | ensun

IL Photonics specializes in selling a variety of photonic systems in Israel, including interferometers, stroboscopes, and spectroscopic microscopy, and provides expert technical assistance to ensure

Global Optical Power Splitters Market Size, Growth Analysis, Trends ...

Explore the Optical Power Splitters Market forecasted to expand from USD 1.2 billion in 2024 to USD 2.5 billion by 2033, achieving a CAGR of 9.1%. This report provides a thorough analysis of industry

Splitters - Mouser Israel

Embedded Solutions Video Modules (1) Show more Results: 78 Applied Filters:
Product = Splitters Reset All

Beam Splitters - Buyer's Guide & Supplier List | RP

This buyer's guide for beam splitters provides technical background, comparison of major types, selection criteria, and an overview of suppliers.
