

KVM Switch Manufacturer for Data Centers

AI Overview

Top KVM switch manufacturers for data centers include AZE, Raritan, Guntermann & Drunck, ATEN, Adder Technology, and Rextron, offering high-performance, scalable, and remote-access solutions. Leading Manufacturers and Their Offerings

AZE provides a wide range of KVM switches, LCD KVM consoles, and IP KVM solutions designed for data centers, control rooms, and industrial environments. Their products feature high-resolution displays up to 4K, plug-and-play functionality, and multi-platform compatibility, enabling efficient server management and remote access from anywhere in the world .

Raritan is a long-established provider with over 30 years of experience in KVM and remote access solutions. Their Dominion® KX-III KVM-over-IP switches support 8, 16, 32, or 64 servers, while the CommandCenter® consolidates access to multiple servers and KVM switches. Raritan's solutions are ideal for large-scale data centers requiring secure, centralized management .

Guntermann & Drunck (G&D) specializes in KVM switches for high-resolution video (up to 5K) and IP remote control. Their products are widely used in critical control rooms, industrial automation, broadcast, maritime, and energy sectors, providing centralized access to multiple systems from a single workstation .

ATEN International offers a broad portfolio of KVM switches, video matrix switches, and connectivity solutions. Their products are designed for IT and multimedia environments, supporting remote management, high-resolution video, and multi-platform server control .

Adder Technology provides advanced connectivity solutions, including ADDERLink INFINITY and X-DVI series, which enable remote access and control of multiple servers. Their KVM switches are suitable for critical applications in data centers, broadcast, and industrial automation .

Rextron International manufactures KVM switches and exten...
