

Lighting busbar trunking low current busbar

Overview

Prefabricated busbar trunking for lighting systems, from 25A to 40A (1 circuit). A circuit of 2 or 4 conductors + PE to carry the current, support and supply the lighting devices. Where is the Lighting Busbar Used?

Why Should Lighting Busbars Be Used in Lighting Installations?

EAE Lighting Busbar ranges are cost effective and the best choice. Canalis KB is the perfect solution to fit numerous light fittings on ceilings, in small- to medium-height buildings, such as workshops, warehouses, garages or supermarkets. This modular system is easy to handle and assemble, fully upgradable and reconfigurable. The conductors are PVC insulated. Standard number of. C&S offers Lighting Trunking – LB series under “Metabar Range” for Low Voltage Power Busbar Solutions for 25A & 40A. Lighting trunking finds application in Power Distribution solutions replacing cables for- Above Applications will find Power Distribution solutions in following segments The Power. Lighting bus bar trunking (GLS) comes in 2, 4, 2 + 2, 6 and 8 poles rated 25 and 40 amps, with aluminium external extrusion busbar housing which makes the lighting trunking lighter also serves as the system earth.
