

Mexican Retail Fiber Optic Distribution Box 24 Cores

Overview

This distribution box terminates up to 2 fiber optic cables, offers spaces for splitters and up to 48 fusions, allocates 24 SC adapters and working under both indoor and outdoor environments. It is a perfect cost-effective solution provider in the FTTx networks. Fiber distribution box is suitable for the wiring connection of optical cable and optical communication equipment, through the adapter in the wiring box, the optical jumper leads the optical signal, and realizes the optical wiring function. 288 core catering various optical deployment. FTTH Box comply with salt spray test, crush test and temperature cycling under international standard. All are RoHS, and REACH.
