

Moldova Fireproof Cable Tray Material Price Quotation

AI Overview

Fireproof or flame-retardant cable trays in Moldova typically range from \$2 to \$25 per meter depending on material, type, and finish.

Material Options

In Moldova, cable trays are available in several fire-resistant and durable materials:

- Galvanized Steel:** Common, cost-effective, and moderately corrosion-resistant; suitable for most industrial and commercial applications.
- Stainless Steel:** Highly corrosion-resistant and fireproof, ideal for harsh environments; more expensive than galvanized steel.
- Fiberglass or Polymer Composites:** Lightweight, corrosion-resistant, and flame-retardant; suitable for chemical or outdoor installations.
- Halogen-Free Plastic:** Fire-retardant and low smoke emission; best for indoor applications where fire safety is critical.

Price Range

Cable tray prices vary based on material, tray type, size, coating, and order quantity:

- Steel trays: \$10–\$30 per meter
- Aluminum trays: \$20–\$50 per meter
- Plastic or polymer trays: \$2–\$15 per meter

Bulk orders can reduce costs by 20–40%. Additional factors affecting price include surface treatment (HDG, powder coating), tray width and height, and labor or shipping costs.

Supplier Options in Moldova

- Brilltech Engineers Pvt. Ltd.:** Offers galvanized steel, stainless steel, and fiberglass trays with installation support and free quotations.
- EMC-direct and Eurotray:** Specialize in corrosion-resistant polymer and fiberglass-reinforced trays for industrial and renewable energy applications.
- Go4WorldBusiness:** Connects buyers with verified flame-retardant cable tray suppliers in Moldova for bulk orders.

Quotation Guidance

To obtain an accurate quotation:

- Specify material (steel, stainless steel, fiberglass, polymer).
- Provide tray dimensions (width, height, length).
- Indicate tray type (ladder, perforated, wire mesh).
- Mention quantity and delivery location.
- Request additional services if needed (installation, design support).
