

Nigerian Standard Distribution Box Design Manufacturer

AI Overview

Reliable Nigerian manufacturers of standard distribution boxes include Reliable Electrics Limited, Tranos, Oroson, and Futina, offering SPN, TPN, and modular designs for residential, commercial, and industrial applications. Key Manufacturers and Products Reliable Electrics Limited supplies a range of distribution boxes including SPN (Single Pole & Neutral) and TPN (Triple Pole & Neutral) models suitable for single-phase and three-phase systems. Their products are designed for safe, organized, and efficient power distribution, with options from brands like ABT, Schneider Electric, and Second Option. Tranos manufactures enclosures under the brand 'Encase', adhering to international standards such as IEC 60529, IEC 62208, IEC 62271-202, and NEMA 250. These enclosures are suitable for electrical, mechanical, and IT applications, providing robust protection and compliance with global safety standards. Oroson offers distribution boxes rated for AC50/60 Hz circuits, up to 415V, and currents up to 125A. Their boxes support flush and surface mounting, single-phase (4-12 ways) and three-phase (4-12 ways) configurations, and are made from cold-rolled steel or stainless steel with plastic powder coating for durability. They can accommodate MCBs, MCCBs, and leakage switches, and are suitable for indoor and outdoor use. Futina provides the FTB series, featuring ABS panels, PC windows, and metal housings. These boxes are designed for 220V/380V AC circuits at 50Hz, available in flush and surface types, and are ideal for modular combination equipment installation.

Design and Customization Features

Material Options: Cold-rolled steel, stainless steel, ABS plastic, or metal enclosures.

Mounting Types: Flush-mounted or surface-mounted.

Phase Options: Single-phase (SPN) and three-phase (TPN).

Safety Features: Overload protection, short-circuit protection, and leakage switches.

Customization: L...
