

ODF patch panel single-mode FC fully equipped with 48 cores

Overview

This fully loaded FTD-LC-SM-48 model features 48-core LC single-mode connectors housed in a durable off-white enclosure. It ensures superior cable protection, organized fiber routing, and minimal signal loss, making it a perfect solution for scalable and high-performance fiber. ODF series indoor optical fiber distribution box is used in the terminal access link of FTTH system. ODF series are standard 19" rack mount chassis with integrated fiber. Fibre Optic Splice Patch Panel 2U 19" 48 port FC Singlemode with adaptors and pigtails. LUL Compliant optical fibre patch panel. Users can select unit or ring flange amount according to their practical needs. With its fusion and plug-in options, the ODF provides reliable, high-capacity fiber management in a compact 2U height. Its sliding feature makes it easy to access and.
