

Portuguese Fiberglass Cable Tray Company

AI Overview

EFG Composites and TRIGLASS® are leading Portuguese manufacturers of high-quality fiberglass cable trays, offering durable, corrosion-resistant, and customizable solutions for industrial applications. EFG Composites specializes in fiberglass cable trays designed for critical industrial environments. Their products include ladder and perforated types, fabricated from pultruded sections of advanced polyester and vinylester resins, incorporating UV stabilizers and surfacing veils for enhanced corrosion resistance. EFG trays are suitable for power plants, refineries, paper mills, and laboratories, providing excellent insulation, durability, and fire retardancy. They offer a wide range of thicknesses (1.2 mm to 3.0 mm) and widths (50 mm to 1000 mm), along with accessories like bends, reducers, and coupler plates for complete cable management systems. TRIGLASS® by Top Glass produces fiberglass-reinforced cable trays and ladders using pultruded profiles that meet stringent mechanical and fire-resistance standards. These trays provide excellent electrical insulation, self-extinguishing properties, and minimal toxic smoke in case of fire. TRIGLASS® offers customizable sizes, resin types, and reinforcements, making them suitable for demanding industrial environments where safety and performance are critical.

Key Advantages of Fiberglass Cable Trays

- Corrosion resistance:** Ideal for chemical, coastal, or outdoor environments.
- Lightweight yet strong:** Easier installation compared to steel or cement trays.
- Electrical insulation:** Reduces grounding requirements and enhances safety.
- Fire resistance:** Many trays are self-extinguishing and produce minimal smoke.
- Long service life:** Typically 30-50 years under proper conditions.
- Customizable:** Available in various widths, thicknesses, and resin systems to meet specific project requirements.

Conclusion For high-quality...
