

Price list for fiber optic cable pulling machines for sale

AI Overview

Fiber optic cable pulling machines typically range from around \$27,000 for standard models to \$80 per set for entry-level units, depending on type, power source, and features.

Price Overview

Purchase Prices: On average, a new fiber optic cable puller can cost approximately \$27,304, though prices vary based on brand, model, and included features such as hydraulic or electric power, capstan size, and automation systems (KWIPPED).

Entry-Level Models: Some procurement-friendly options, like the Hengshui Nuokon machines, start at \$80 per set, suitable for small contractors or limited-scale projects (Accio).

Rental Prices: Renting a fiber optic cable puller is also an option, with typical rates around \$300/day, \$979/week, or \$3,075/month (KWIPPED).

Financing: Financing options are available, with monthly payments averaging \$514/month on a 60-month lease for standard models (KWIPPED).

Types and Features Affecting Price

Hydraulic Pullers: Ideal for long-distance underground installations, offering high pulling force and precise tension control. These are generally more expensive due to their power and durability (Alibaba).

Electric Pullers: Provide precise speed and torque control, suitable for indoor conduits, data centers, and urban telecom projects. Prices vary with motor power and automation features (Linemen-Tools).

Gas or Diesel-Powered Pullers: Portable and independent of electrical infrastructure, often used in remote or high-voltage environments. These units can be mid-range in cost but offer high pulling capacity (Linemen-Tools).

Manual Pullers: Hand-operated devices are the most affordable, suitable for short-distance or small-scale installations (Alibaba).

Advanced Features

Modern fiber pulling machines may include PLC-controlled automation, IoT-enabled monitoring, anti-jam sensors, low-friction guide rollers, and emergency stop mechanisms, which can increase the...
