

Price of East Asia Metal Ladder Cable Trays

AI Overview

Steel ladder cable trays in East Asia typically range from \$2 to \$25 per meter, depending on material, type, and supplier.

Pricing Overview

The cost of steel ladder cable trays varies based on material, coating, size, and supplier. Common materials include galvanized steel, stainless steel (304/316), aluminum, and epoxy-coated steel, with galvanized steel being the most cost-effective and stainless steel the most expensive due to corrosion resistance and durability. Ladder trays, designed for heavy-duty cable support, generally cost more than wire mesh or perforated trays.

Galvanized steel ladder trays: \$2–\$10 per meter for standard sizes.

Stainless steel ladder trays (SS304/SS316): \$15–\$25 per meter, suitable for corrosive environments.

Aluminum ladder trays: \$10–\$20 per meter, lightweight and rust-proof.

Supplier Examples

IndiaMART suppliers list competitive prices for ladder cable trays: Global Manufacturers And Traders start at ₹90/meter (\$1.10), while Canco Fasteners and Excel Metal & Engg Industries start at ₹100/meter (\$1.20) for bulk orders.

Singapore suppliers offer various metallic options including HDG, GI, and epoxy-coated steel, with medium and heavy-duty ladder trays available in multiple sizes.

Factors Affecting Price

Material and Coating: HDG (hot-dip galvanized) is more durable outdoors but costs more; epoxy-coated steel adds protection and color options.

Tray Type and Duty: Heavy-duty ladder trays (50–100mm rungs) cost more than light-duty (13–25mm) trays.

Length and Customization: Standard lengths are typically 2.4 meters; custom lengths or fittings (tees, bends, risers) increase cost.

Bulk Orders: Large project orders can reduce per-meter cost significantly.

Shipping and Installation: Heavier trays and remote locations increase total cost.

Practical Advice

For East Asia procurement, it is recommended to contact local suppliers directly.
