

Price of hot-dip galvanized cable trays in Qianwei

AI Overview

Hot-dip galvanized cable trays in China, including Qianwei, typically range from \$15 to \$50 per meter depending on size, type, and customization.

Pricing Overview The cost of hot-dip galvanized cable trays varies based on tray type, width, load capacity, and material thickness. Standard ladder-type or perforated trays generally start around \$15–\$20 per meter for smaller widths (150–300 mm) and can reach \$40–\$50 per meter for larger widths (450–600 mm) or heavy-duty designs. Customization, such as OEM branding, perforation patterns, or special coatings, may increase the price.

Factors Affecting Price

- Material:** Steel is standard, but stainless steel (304/316) or aluminum options are more expensive.
- Surface Treatment:** Hot-dip galvanizing ensures corrosion resistance and durability, which is generally more costly than electro-galvanized finishes.
- Dimensions and Load Capacity:** Wider trays or those designed for higher cable loads cost more due to additional material and structural reinforcement.
- Order Volume:** Bulk orders often receive discounts, especially from factory-direct suppliers.
- Supplier Location:** Local suppliers in Qianwei may offer competitive pricing compared to distant manufacturers, reducing shipping costs.

How to Obtain Accurate Quotes

- Contact Local Suppliers:** Platforms like Alibaba and Made-in-China list verified manufacturers who can provide tailored quotes for Qianwei delivery.
- Specify Requirements:** Include tray type, width, length, load capacity, and any customization needs.
- Request Multiple Quotes:** Compare factory-direct and OEM options to find the best balance of price and quality.
- Consider Lead Time and Shipping:** Delivery timelines can affect total cost, especially for large or customized orders.

Market Trends The hot-dip galvanized cable tray market in China is growing due to industrial modernization and infrastructure projects, with China producing ov...
