

Quotation for hot-dip galvanized cable trays in South Sudan

AI Overview

Hot-dip galvanized cable trays typically range from \$25 to \$80 per 2.4-meter section, depending on type, size, and supplier, with additional costs for shipping to South Sudan.

Overview of Pricing Hot-dip galvanized (HDG) cable trays are widely used for industrial and infrastructure projects due to their corrosion resistance and durability. Prices vary based on tray type (ladder, perforated, or wire mesh), thickness of steel, and length. Standard 2.4-meter ladder-type trays generally cost between \$25 and \$50 per section, while heavier-duty or custom trays can reach \$60 to \$80 per section. Wire mesh trays may be slightly higher due to manufacturing complexity.

Factors Affecting Price in South Sudan

- Import and Shipping Costs:** South Sudan relies heavily on imports for industrial materials. Shipping from major producers like China, India, or Vietnam can add 20–40% to the base price.
- Supplier and MOQ:** Prices fluctuate depending on supplier minimum order quantities and whether the trays are purchased in bulk or small quantities.
- Customization:** Custom sizes, bends, or accessories (joiner clamps, hold-down saddles) increase the overall cost.
- Market Volatility:** Steel and zinc price fluctuations globally can affect the final cost.

Estimated Price Range for South Sudan

Tray Type	Standard Length	Estimated Price (USD)
Ladder Tray (Light Duty)	2.4 m	\$25 – \$40
Ladder Tray (Medium/Heavy Duty)	2.4 m	\$45 – \$60
Wire Mesh Tray	2.4 m	\$50 – \$80
Accessories (Clamps, Saddles)	Per piece	\$2 – \$10

Recommendations

- Bulk Orders:** To reduce costs, consider ordering in bulk from regional suppliers in East Africa or directly from China/India.
- Local Distributors:** Check for local distributors in Juba or nearby industrial hubs to minimize shipping delays and import duties.
- Verify Coating Quality:** Ensure trays meet ISO 1461 or SANS 121 standards for hot-dip galvanization to guarantee long-term durability.
