

Swedish Fiber Optic Cable Manufacturing

AI Overview

Sweden has a robust fiber optic cable supply network with over 200 active suppliers, including major manufacturers like Nexans, Habia, and Westermo, serving both domestic and international markets.

Key Suppliers and Manufacturers

- Nexans:** Offers a wide range of fiber optic cables for data, telecommunications, and industrial applications. Their products are suitable for indoor, outdoor, underground, aerial, and water installations, ensuring high performance and fire safety.
- Habia:** Specializes in customized high-performance cables and connectivity solutions for demanding applications, including industrial and critical infrastructure.
- Westermo:** Focuses on industrial fiber optic products for serial and Ethernet networks, supporting mission-critical systems in sectors like rail, transport, water, and energy.
- Eastern Light:** Provides dark fiber optic cable solutions, including international and subsea routes, such as the Stockholm to Berlin subsea cable, catering to cloud providers and long-haul data networks.
- OneCo:** Offers installation services for fiber optic cables through partnerships, ensuring safe and efficient deployment for telecommunications and power networks.

Supply and Export Network

Sweden maintains a well-established export network for fiber optic cables. According to Volza, there are 200 suppliers in Sweden, with 94 exporters active between July 2024 and June 2025, shipping to 268 buyers worldwide. This network provides verified shipment data, trade routes, and buyer distribution, enabling importers to assess supplier reliability and long-term partnership potential.

Applications and Capabilities

Swedish fiber optic cables are used in:

- National, city, and rural networks
- Property and industrial networks
- Subsea and long-haul international connections

Challenging environments requiring robust and fire-safe cables. The supply chain supports both standard and customized solutions, making Sweden a reliable source for high-quality fiber optic cables suitable for telecommunications, industrial automation, and critical infrastructure projects.
