

Vanuatu Primary Optical Cable

Overview

Tamtam is a regional submarine cable with a total length of 411 km, set to be ready for service in 2027. New Caledonia: Nouméa Vanuatu: Luganville, Norsup, Port. ASN and OMS are pleased to announce that the Tamtam Cable contract with Prima Ltd (Vanuatu) has officially entered into force as of 16 December 2025. The Tamtam Cable project will significantly strengthen Vanuatu's digital. The TamTam submarine cable system consists of a 411-kilometer international segment connecting Port Vila (Vanuatu) and Lifou Island (New Caledonia), and domestic extensions to other islands in Vanuatu, including Tanna, Norsup and Luganville. The cable will connect New Caledonia and Vanuatu, providing a direct fiber-optic path between these two countries. ASN signed a deal with Prima in January.
