

Warranty on carrier-grade router 800G

Overview

Enter your serial number into our Carrier Warranty Lookup Tool to check your warranty coverage. Use this info when contacting a dealer to learn more about your coverage, or contact customer care at 1-800-CARRIER. 7050X Series The 7050X Series combine scalable L2 and L3 features with comprehensive network monitoring, automation, virtualization and visibility features for Enterprise and virtualized Data Center networks. Follow the link and type in your Cisco Product ID (PID). Leveraging the advanced Qumran3D platform, it delivers exceptional forwarding scale, power efficiency, and feature richness to address the rapidly evolving demands of carrier-grade backbone. 800 Gigabit Ethernet (800GE) routing is the next generation IP networking technology enabling operators to upgrade router interfaces to 800 Gb/s. It leverages the most recent QSFP-DD interface module specifications to support high-density 800GE pluggable optics with backwards compatibility for. Juniper's 400G and 800G routing and switching portfolio offers the industry's most comprehensive and high-performing platforms designed to improve customer experiences. Choose from Juniper's broad 400G and 800G portfolio including PTX Series Packet Transport Routers, MX Series Universal Routing.
