

Waterproof base distribution box

Overview

A waterproof distribution box protects terminals, splices, and miniature modules from water, dust, and UV exposure—critical for outdoor reliability and safety. Our AT Series and HT Series are engineered for long-term performance under IP65 waterproof distribution box requirements. Available in 4-39 ways, single/double/triple layers, ideal for industrial, commercial, and photovoltaic applications. Built with durable materials, CE & ROHS certified. Contact us for custom solutions! SELHOT's plastic power distribution boxes (plastic distribution boards) are impact and oxidation resistant, making them ideal for use in waterproof and dustproof environments. They have ample wiring space, IP65 protection level, and are available in 7 different specifications. This guide primarily analyzes structural engineering characteristics, technical specifications, and actual installation procedures to achieve optimal field performance.
