

What is the yellow corrugated pipe in the tailpipe groove

Overview

What you're seeing is normally steam caused by condensation in the exhaust pipe, however, it could also be a sign of a coolant leak or gasket failure, which will require immediate attention. Excessive water in the car exhaust pipe can cause it to corrode from the inside out. Just curious, what are the advantages over the yellow pipe over the white pipe and 3" corrugated pipe?

Right now our track has the 3" black flex pipe and over 6 weekends it has gotten torn apart in some areas. We have the white pipe and that should be much better as well as more visible, so why. What are these yellow corrugated tube things being lined up underground in the parking lot of the building next door. Yup, it looks like. After 130 years, Baughman Tile continues to be an industry leader in the single wall corrugated pipe market. Yellow corrugated pipe has. What is the name of this kind of flexible pipe?

Is it permitted to use this kind of pipe as tailpipe?

Thank you very much. Where is this part of your plumbing course?

They sell. A typical muffler has at least 2 pipes coming in/out of it: 1 that carries exhaust into the muffler and 1 that carries exhaust out (i.
