

Which company sells electrical distribution boxes in Western Europe

AI Overview

Key manufacturers of electrical distribution boxes in Western Europe include DKC Group, Wieland Electric, Adelid, and Elmark Holding, offering solutions for residential, commercial, and industrial applications. Leading Manufacturers DKC Group (Italy/Europe) DKC Group specializes in cable tray systems and energy transport and distribution solutions for civil and industrial infrastructures. They provide a comprehensive range of electrical distribution systems suitable for various applications, emphasizing international reach and high-quality standards. Wieland Electric (Germany) Wieland Electric offers decentralized and pluggable electrical distribution boxes for power, signal, and I&C applications. Their products comply with IEC 61439 and IEC 61535 standards, supporting smart building integration and energy-efficient installations. They focus on flexible, project-specific solutions for both harsh environments and standard installations. Adelid (Poland) Adelid manufactures hand-assembled power distribution boards, including protected and unprotected types. Their boards are designed for single-phase and three-phase systems, with modular inspection windows and DIN rail compatibility. Adelid emphasizes safety, high-quality materials, and long operational life for residential, commercial, and industrial installations. Elmark Holding (Hungary/Europe) Elmark Holding produces plastic and modular distribution boxes with DIN rails, terminal strips, and protective devices. Their product range includes IP40 and IP65 rated boxes suitable for indoor and outdoor use, with options for single-phase and three-phase systems. They cater to both household and industrial applications, offering versatility and durability. Additional Resources For a broader selection of suppliers, Europages lists over 600 manufacturers and producers of electrical distribution boxes in Germany and other...
